## DETAILED ACTION

### ***Specification***

1. The abstract of the disclosure is objected to because of legal phraseology (eg, "said" in lines 3,4 and 5). Correction is required. See MPEP § 608.01(b).
2. The disclosure is objected to because of the following informalities: "shield (28)" (page 4, lines 20 and 21) is incorrect in that the shield in instead #22.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Deck et al (USP 3,369,269). The patent to Deck discloses a paint applicator comprising a handle (2), roller applicator (4), platform (1) fixed to the handle and including a roller arm (3), shield (8) and a paintbrush (11).

5. Claims 9-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Whalen (USP 2,907,061). The patent to Whalen discloses a paint applicator (10) comprising a handle (20), roller applicator (50), platform (26) including a roller arm (the region including the semi-circular portion of the platform adjacent the roller in fig 2), shield (22,24) and a paintbrush (40).

***Claim Rejections - 35 USC § 103***

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 13-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Whalen (USP 2,907,061) in view of Batanjski (USP 5,836,610). The patent to Whalen discloses the invention substantially as claimed with the exception of the one or more projections/wheels. The patent to Batanjski discloses the provision of projections/wheels (6) on a paint applicator. It would have been obvious to one of ordinary skill to have modified the device of Whalen as suggested by Batanjski so that it moves more easily across the surface being painted.

***Allowable Subject Matter***

8. Claims 1-8 are allowed.

9. Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
